### Warranty

All warranty will be void if GPS SIM card is taken out; services will be STOPPED if misused of GPS wireless network. All new GPS have 1-year warranty. GPS remain under warranty when account remain continuous active subscription.

### Notes:

- The white mini user manual in the GPS box is for reference only. You may review the booklet; However, this THINKRACE setup eManual is specific for Canada user.
- Location display speed are greatly influence by the internet traffic; therefore, expects some delay between 1 – 4 pm EST
- tracksolid app provide all the functions you need except for reporting, use [www.tracksolid.com](http://www.tracksolid.com) for reporting
- This GPS will also track in USA without roaming charges
- We keep the historical location data for the latest 6 months; however, we provide an excel download to your PC in [www.tracksolid.com](http://www.tracksolid.com)
- In playback location, if today have no data, then select yesterday
- To check if GPS is power on, press the middle button and the red light should turn on
- Not all functions in the app are applicable to your GPS GT350 model

**There are 2 tracking platforms one for mobile app and one for PC**

**GPS battery life (4 – 90 days):**

- Battery life depend mostly on update time, you can set your update time by sending a command to the user defined command function in the app or PC
- This is an estimation of the battery life, and you can vary the time parameter (we can also change the update time by your email request)

Note, there are 2 command mode parameters - WORKMODE,N,T# (N=1, active N=2, wake-up):

1=active standby, and conserve battery when no vibration or movement (time unit in second)

2=sleep mode, and only wake-up at pre-set time cycle, on your app it will show offline (time unit in minute)

<u>Uses</u>	<u>Update</u>	<u>Standby</u>	<u>Command Mode</u>	<u>Description</u>
Tracking Vehicle	10 second	2 days	WORKMODE,1,10#	GPS update every 10 second
Vehicle+People	20 second	3 days	WORKMODE,1,20#	*** default ***
Tracking People	1 minute	5 days	WORKMODE,1,60#	GPS update every 60 second
General Asset	1 hour	25 days	WORKMODE,2,60#	GPS wake-up every 1 hour
Fixed Asset	24 hour	90 days	WORKMODE,2,1440#	GPS wake-up every 24 hour
